

Stay connected

Connectivity
and accessories

Enjoy the future of universal connectivity

Stay connected to people, news and entertainment wherever you are with Beltone hearing aids.

An enhanced Bluetooth® experience

Listen to what you want anywhere with Bluetooth® Low Energy (LE) Audio*, the clearest Bluetooth experience ever, including low battery usage and a reliable connection for all-day streaming.¹

Join Auracast™ experiences

You can tune into Auracast broadcast audio on the go and hear it all in your hearing aids. Listen to TVs in waiting rooms or gyms, service announcements at airports and public places, all the facts on museum tours and at conferences, and much more.

* Bluetooth LE Audio works with Beltone Envision™, Beltone Boost Max™ S, Beltone Commence™ and Beltone Serene™ and compatible mobile devices with Bluetooth 5.3 or later

Reference: 1. GN data on file (2025)

Made for Auracast

Use the world's first Auracast Assistant for hearing aids¹, available in the Beltone HearMax™ app*.

Connect to Auracast broadcasts with a tap! It's easy to find and hear the audio streams, as well as share your own streams with a larger group.

How it works

1. Click on “Find a broadcast”
2. Choose an Auracast broadcast from the list
3. Enjoy sound streamed directly to your Auracast-enabled hearing aids.

* Auracast Assistant works with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene

Reference: 1. GN data on file (2025).

Control at your fingertips

Take control of your hearing aids for clear sound and comfort. Even in noisy environments, you can easily focus on conversations.

Beltone HearMax app

Use the Beltone HearMax app on your mobile device to take control of your hearing aids and adjust volume or change programs to focus on what you want to hear.

Remote Control

At the touch of a button, the Remote Control gives you intuitive control over volume and program settings.

Remote Control

Multi-Mic+ focuses on speech

Place the Multi-Mic+ on a table when you want to hear many people equally, or clip it onto the clothing of a conversation partner or a presenter. The audio from the Multi-Mic+ is streamed to your hearing aids* without excluding you from hearing other sounds around you.

The world's first remote mic with Auracast¹

The Multi-Mic+ offers the future of connectivity, now. Use it to start an Auracast stream, which you can share with a larger group.

* Compatible with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene hearing aids

Reference: 1. GN data on file (2025)

Improve your TV experience

In challenging listening situations, like watching TV with your family, it's great to have a little extra help.

TV-Streamer+

Get immediate speech clarity by streaming the sound from the TV to your ears at your preferred volume.

The Auracast-enabled TV-Streamer+* connects easily, allowing others with Auracast-enabled devices nearby to join in and enjoy the sound with you.

TV Link 2

Get the sound straight to your hearing aids with the TV Link 2 for clear audio at the preferred volume.

TV-Streamer+

TV Link 2

* TV-Streamer+ is compatible with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene

Seamless streaming

Enjoy streaming tailored to your needs with flexible solutions.

Hands-free calls

Experience easy call pick-up with a double tap* to the hearing aid for hands-free calls from iPhone, iPad and compatible Android™ mobile devices.**

Boost streaming

Seamlessly switch between devices with MultiConnect***. It pairs two smart devices at once for uninterrupted streaming, like taking a call while streaming from a laptop.

Made for

iPhone | iPad | iPod

Works with

Android

* TapControl works with hands-free calls. Only available with Beltone Envision microRIE, Beltone Boost Max S and Beltone Serene microRIE
